The Manager, The Civil and Military Gazette Ltd., Edwardes Road, Rawalpindi.

The Proprietor, The English Book Depôt, Wazir Ali Buildings, Ferozepore.

PREFACE.

THIS volume is issued under the orders contained in the Punjab Government, Revenue Department, letter No. 2279-R., dated the 14th June, 1928. The lines on which the revision of District Gazetteers is to be undertaken are laid down in the Government of India, Home Department, letter No. 3373, dated 1st October, 1902, and are as follows :—

"The chief difficulty which stands in the way of the periodical revision of the existing Gazetteers, and that reason which has caused so large a portion of their contents to become obsolete, is that they contain a mixture of permanent matter, such as that relating to the history, physical characteristics, religion, ethnography, &c., of the district; of matter which changes gradually but, as a rule, slowly, such as that dealing with the agricultural and economic conditions; and of ephemeral matter, mainly statistical, which soon becomes out of date. For this reason, when a new District Gazetteer is issued it should consist of two volumes, A and B, compiled on the following lines :—

(1) In the first edition all descriptive matter should go into the A volume; but the volume should contain only such general figures (incorporated in the *letter-press)* as are necessary to give point to remarks in the text. . . . All detailed statistics should be relegated to the B volume which would, at first, consist only of these and of such notes as may be necessary to elucidate them.

(2) On the occasion of the next revision the statistics in the B volume should be re-compiled, and this volume should be expanded by adding to it any matter that might be required to correct or supplement the A volume. Thus if there had been a famine since A was published, if a new railway had been opened, and so forth, information on these points would appear in B as supplementary to the appropriate chapters in A.

(3) This process would go on till the time had come for revising the A volume. Then all the supplementary text matter should be incorporated in

the new A volume, and B would revert to its original form as a statistical appendix with explanatory notes.

(4) A new edition of the B volume should be brought out after each census. The revision of the A volume must be left to the discretion of the Local Governments. The occurrence of a new settlement will ordinarily be the best time for such revision*; but it may well happen that plenty of copies of the original A volume are still available, and that the settlement and lapse of time have not wrought any important change in the conditions of the district. In that case the revision of A should stand over till the stock of it no longer suffices for the demand; but a brief account of the settlement operations and of the changes which they have produced or disclosed in the state of affairs described in the A volume, should be prepared by the Settlement Officer before he is relieved of his duties *for inclusion in* the next decennial B volume.

(5) The statistical part of the B volume should be issued with interleaved blank pages, so that those who use it can have the figures of later years written in. The tables included in the B volume should be drawn up on uniform lines, and should contain the main administrative statistics of the district and its tahsils or other sub-divisions. . . . It is thought that including the explanatory notes they should not ordinarily exceed a maximum limit of 50 pages."

Instead of issuing the tables with interleaved blank pages as suggested in para. (5) above, it has been found convenient to print the tables themselves with blank spaces in which to insert the figures of future years. The pages occupied by the statistical matter thus include the space which in the original scheme would have been appropriated by the interleaved pages, and consequently are somewhat in excess of the maximum fixed in para. (5).

---

* In the Punjab the Settlement Officer is generally entrusted with the revision of the District Gazetteer, and this plan is commended for adoption in other Provinces.

Supplementary text matter to be incorporated in the appropriate chapter of the A volume at the time of its republication.

A.—PHYSICAL ASPECTS.

Sampla Tahsil was abolished in the year 1910 and merged in the Gohana, Rohtak and Jhajjar Tahsils. Sonepat Tahsil of the Delhi Province was added to the district on 17th September, 1912.

F.—MEANS OF COMMUNICATION.

Rohtak, Gohana and Panipat Railway was constructed in the year 1927.

FAMINE.

No Famine took place after the last settlement, but the district was visited by flood in the years 1924 and 1933. The latter was most terrible and unprecedented. The new *abadi* outside the old Rohtak town *abadi* and extending up to the Railway Station, and the Civil Station was all under water. The depth of water was from 12 to 18 feet in some places, such as the College and its vicinity, etc. Many houses had collapsed both in the town and the villages and much loss of property was caused. Relief centres for the help of the distressed people were opened at several places, incurring an expenditure of Rs. 38,711-12-3. Takavi in the form of seed of the value of Rs. 1,52,795 was freely distributed. No loss of human life had taken place, but some loss of cattle was reported.

Supplementary text matter to be incorporated in the appropriate chapter of the A volume at the time of its re-publication.
